**The CEA CAPA Sydney Program, which runs on the US academic calendar, is centrally located near Darling Harbour and many shopping precincts. Take advantage of part-time internships that provide insight into Australia's place in the global economy. CEA CAPA has an extensive network of internship sites in Sydney, including at major businesses and non-governmental and nonprofit organizations. Build professional skills and gain perspective as you engage a network of international contacts in your field. We actively encourage you to go beyond the classroom in order to meet and interact with Sydneysiders. You can participate in walking tours, guest lectures, and other activities with representatives who give Sydney its rich cosmopolitan flavor. Earn 12-15 credits for the semester, or 6-9 for the summer.**

Sydney is a vibrant hub of international business, fine arts, design, theater, technology, politics, and finance; it is also a gateway to Australia's vast countryside - rich in tribal history and natural beauty. Sydney is built around one of the world's most beautiful harbors, and the white-sailed Sydney Opera House and Sydney Harbour Bridge are Australia's pride and joy. There's more to Sydney than its 70+ white sand beaches, surf culture, and iconic Opera House - although those are certainly perks! It's an incredible global city of more than 120 nationalities and a major cultural melting pot, with nearly 32% of Sydneysiders born overseas.
