Note that additional spending money and personal travel expenses are typically not included in the calculation of financial aid, and you must expect to save for these expenses outside of what your financial aid will provide. **The amount of additional funds needed depends**

greatly on your personal spending habits and can vary widely from student to student. We encourage you to apply for our [CAPA Scholarships](#) to help cover the cost of your program.

1. *This is mandatory and included in program fees. You may wish to have additional coverage through your own US health insurance, or your institution may require you to purchase its own health insurance. That cost varies depending upon the plan.*

2. *This is an average cost based on Chicago, LA, & New York. Prices vary depending on students' availability and location.*

3. *Homestay students will receive breakfast and dinner from their host family.*

4. *You are required to have a mobile phone with data and cell service during the CAPA program. Most cell phone plans abroad offer free incoming calls but charge for outgoing calls and data usage. Students are encouraged to use Wi-Fi wherever possible.*

5. *While CAPA provides a transportation pass encompassing local transport around the city, we recommend students take licensed taxis very early in the morning/very late at night.*
